I ddarganfod maint y fenter at ddibenion cyfraniadau, mae'n rhaid i gyfanswm y FTE a throsiant neu gyfanswm y fantolen cael eu hystyried. Er enghraifft, byddai menter micro gyda throsiant o dros €2 miliwn yn cael ei ystyried yn fach. DS - mae trosiant blynyddol yn cael ei gofnodi mewn iwros.

To determine the size of enterprise for contribution purposes the FTE and turnover or balance sheet total needs to be taken into account. eg. micro enterprise with a turnover over €2 million would be considered small. NB - annual turnover is recorded in Euros.
